## To fulfil customer requirements we:

Ensure cleaning products are handled, stored checked and supplied using methods which protect them from damage or deterioration.

Provide the right organisation and resources and employ the right people to ensure an effective and efficient cleaning contractors operation.

Have objectives that are in line with corporate long term strategies. These strategies consider quality improvement a key factor in enhancing long term business performance and profitability. Quality is seen not as an option, but as a business requirement, in the face of growing competition in cleaning contractors industry.

**At Above The Rest Cleaning Services our cleaning staff maintain the high standards they start out with. We believe that we are here to give you service. If that means we need to spend more time with some clients than allowed, to do the job, then that's how it has to be.**
